Summary: On February 13, 2001, Brian Cherry, Manager, Regulatory Relations, Pacific Gas and Electric Company (PG&E), met with Trina Horner, advisor to Cmmr. Lynch, in San Francisco. Berkovitz discussed the core's ability to procure supply under the new security-backed contracts and of core procurement's contracting activities moving forward. Cherry also discussed PG&E's inability to maximize deliveries when interstate pipeline capacity is available and argued that this circumstance could only be remedied by approving the application.

---------	------------	--

Summary: On February 21, 2001, Judy Peck, State Regulatory Relations Administrator for Sempra Energy, had a telephone conversation on behalf of Southern California Gas Company (SoCalGas) with Trina Horner, advisor to Cmmr. Lynch. Peck stated that SoCalGas has not yet filled out the line of credit they were looking to renew. Peck noted that it has been significantly more difficult for SoCalGas to obtain credit this year than in past years. Peck also stated that SoCalGas intends to use the cushion gas from the Montebello storage field to add capacity to its system and to meet projected gas needs. Peck reiterated that SoCalGas is working on a contract with PG&E that will provide assistance to PG&E at a level that balances PG&E's needs with SoCalGas' need to ensure the integrity of their operations. Peck asked that PG&E's request for mutual assistance be denied.

Summary: On February 20, 2001, Judy Peck, State Regulatory Relations Administrator for Sempra Energy, met with David Gamson, advisor to Cmmr. Brown, in San Francisco. The meeting was initiated on behalf of Southern California Gas Company (SoCalGas). Peck reviewed Pacific Gas and Electric Company's (PG&E) testimony which indicated that PG&E's current storage levels were normal and their daily gas supplies were normal. Peck pointed out that the only abnormality that PG&E reported is a reduction in the term for PG&E's gas supplies, and she noted that PG&E's current gas supply situation does not reflect an imminent emergency. Peck stated that SoCalGas intends to use the cushion gas from the Montebello storage field to add capacity to its system and to meet projected gas needs. Peck reiterated that SoCalGas is working on a contract with PG&E that will provide assistance to PG&E at a level that balances PG&E's needs with SoCalGas' need to ensure the integrity of their operations. 2/26/01 A01-01-024 Pacific Gas and Electric Company, for an immediate finding of a gas supply emergency and an order directing Southern California Gas Company to provide mutual assistance

Summary: On February 23, 2001, Lisa Hubbard, Director of CPUC relations for Sempra Energy, met with Cmmr. Brown in San Francisco. Also present were David Gamson, advisor to Cmmr. Brown, and Judy Peck, State Regulatory Relations Administrator for Sempra Energy. The meeting was initiated on behalf of Southern California Gas Company (SoCalGas). Hubbard explained that Pacific Gas and Electric Company's (PG&E) request is the result of credit limitations and not a physical gas supply shortage. Hubbard raised concerns about the public policy implications of requiring one utility to bank a second utility. Hubbard noted that SoCalGas has presented PG&E with an offer to provide a clearly defined level of assistance and she asked that PG&E's application be denied.

Summary: On February 23, 2001, John Sumpter, Vice President-Regulatory of Pac-West Telecomm, Inc. wrote a letter (attached to the notice) to Cmmr. Lynch. In his letter, Sumpter urges the Commission to ensure that Pacific Bell (PacBell) has met all of the requirements of the Telecommunications Act and Public Utilities Code Section 709.2. The letter underscores the concern that if PacBell is permitted into the long distance market before the local market is fully opened to competition, PacBell will have no incentive to provide the interconnection and open access required for the growth of competition.
